## Dynamics 365 Business Central, on-premises April 2021 News

LAST MODIFIED TUESDAY, FEBRUARY 23RD, 2021

Microsoft is launching a new version of Dynamics 365 Business Central, on-premises effective April 1, 2021.

Qualifying on-premises customer accounts will be updated to the new version by month end.

Please review the [Dynamics 365 Release Schedule](#) for more information.

### **Application Builder and Solution Developer**

Application Builder and Solution Developer functionality is included in the Business Central Essentials and Business Central Premium licenses. These modules will be removed from the April price list.

### **India Localization**

Changes Dynamics 365 Business Central (perpetual and subscription) offers an India localization. Dynamics NAV 2016 Perpetual and Dynamics NAV 2016 Subscription (India country code) sold via DPL will no longer be available for new sales. Reference the full announcement on [PSBC](#).

# Business Central Release 2021

Szerepkör oldal betöltése 20% gyorsabb

Fizetési napló könyvelése 98% gyorsabb

Háttér könyvelések végrehajtása 60% gyorsabb

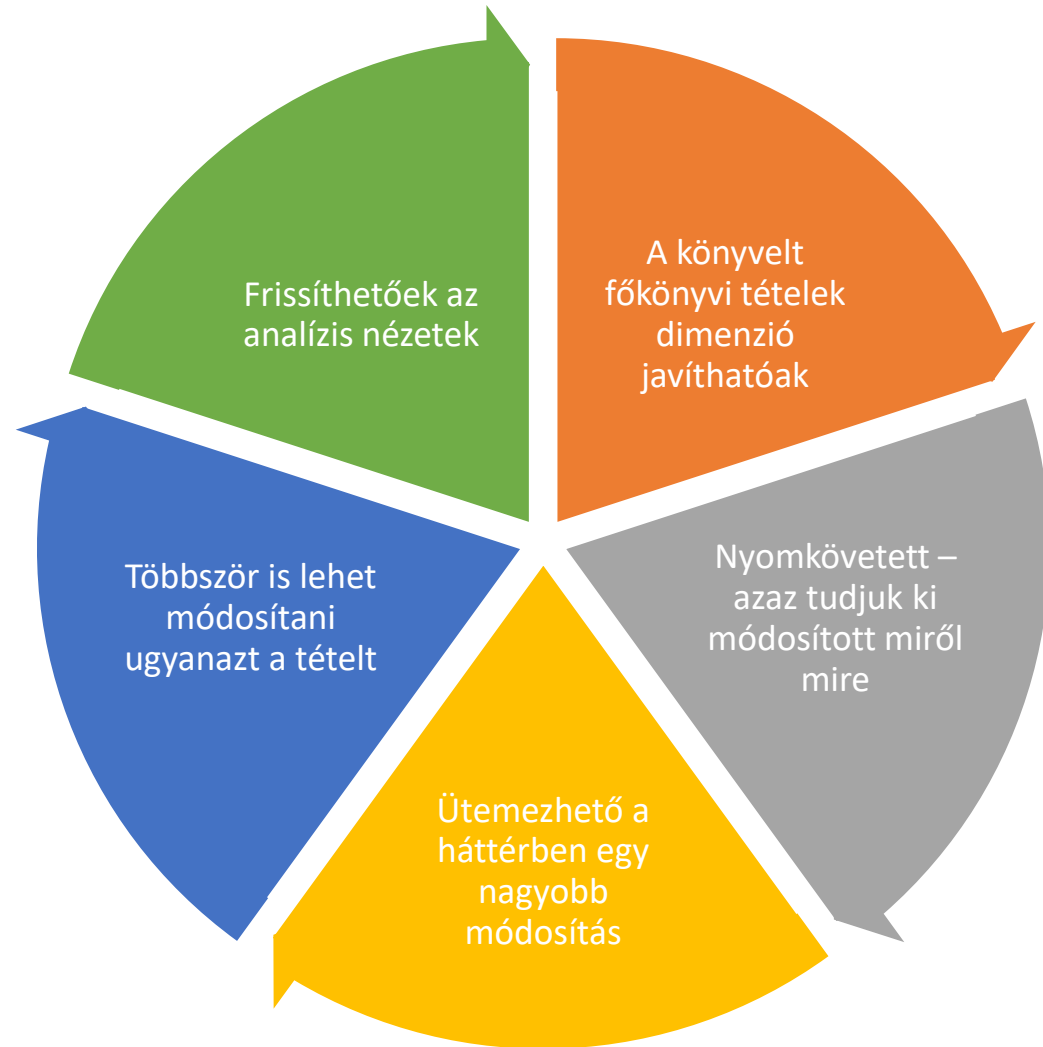

Dynamics 365 Sales integrációnál 3-5x kevesebb SQL műveletek

Web Service műveletek 25% javulás

API válaszidők 5-6x javulás

Jelentések futtatása 3-6x javulás

# Dimenzió javítás

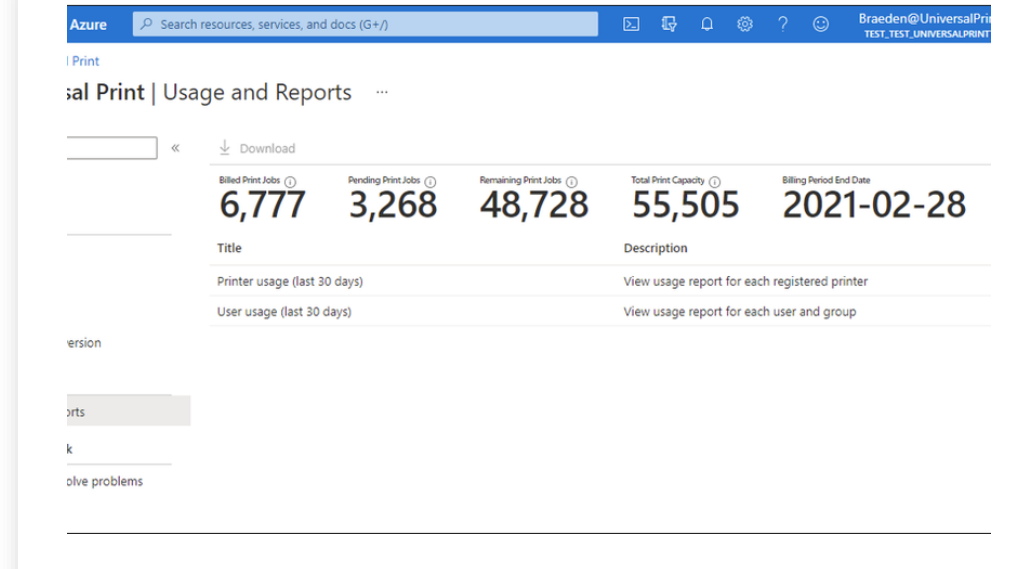

# Új raktári bizonylatok – beérkezés / kiszállítás

- Raktári beérkezés – Pozitív helyesbítés (napló helyett)
- Raktári kiszállítás – Negatív helyesbítés (napló helyett)
- Use **Inventory receipts** to register positive adjustments of items based on the quality, quantity, and cost.
- Use **Inventory shipments** to write off missing or damaged goods.
- You can print these documents at any stage, release and reopen them, and assign common values, including dimensions, in the header. If you want to reprint the documents after they have been posted, you can do that on the **Posted Inventory Receipt** and **Posted Inventory Shipment** pages.

# Universal printing

- Felhős nyomtatási szolgáltatás
- A következő előfizetések része (de önállóan is elérhető)
  - Microsoft 365 Business Premium
  - Windows 10 Enterprise E3, E5
  - Microsoft 365 Enterprise F3, E3, E5
  - Windows 10 Education A3, A5
  - Microsoft 365 Education A3, A5
- Minden licenszelt user 5 jobot kap per hónap (ami nincs elhasználva elveszik)
- Egy nyomtatás a lapok számától függetlenül 1 jobnak számít
- Bővítő csomagokat lehet vásárolni(CSP)

The screenshot shows the 'Welcome to Universal Print Setup (Preview)' screen. It contains a welcome message, a brief description of Universal Print, and a note about the subscription requirement. There are two links: 'Learn more about Universal Print.' and 'Learn more about how the data is handled.' At the bottom, there's a 'Let's go!' button.

Welcome to Universal Print Setup (Preview)

Universal Print is a Microsoft 365 subscription-based cloud printing solution. This setup helps you to add your registered cloud printers from Universal Print into Business Central.

Note that a Universal Print subscription is required and Universal Print needs to be available in your region.

[Learn more about Universal Print.](#)

[Learn more about how the data is handled.](#)

Let's go!

Azok az extension-ök amiket a sandboxba deployolunk egy upgrade során el lesznek távolítva mert magát a környezetet cseréli a Microsoft , azaz mozgatja

Az adatok természetesen megmaradnak, azaz újra kell ezeket az extension-öket telepíteni !

However, the data of the app is not removed, so you only have to re-publish and install the app to make it available. Apps that are uploaded to the environments of both types (production and sandbox) using the **Upload Extension** action from the **Extension Management** page are published within a global scope. When the environment is upgraded or moved, these apps are downloaded to the service node and installed, which means that they will not disappear.

Vizuális élmény a  
felhasználóknak

The screenshot shows the Dynamics 365 Business Central interface. At the top, the header bar displays 'Dynamics 365 Business Central' on the left and 'Sandbox18' with search, notification, and settings icons on the right. Below the header, the 'Users' page is visible, indicated by a back arrow and the text 'Users'. A light blue tour overlay is positioned in the center-left, titled 'About user accounts' with a close button (X). The overlay text reads: 'Here, you manage who has access, and who can do what. Assign specific permissions to individual users, and organize users in user groups with group-level permissions.' It includes two buttons: 'Learn more' and 'Retake tour'. In the background, the 'Users' page content is partially visible, showing a table with columns 'Permission Set' and 'Company'. The table lists two entries: 'D365 BACKUP/R...' and 'D365 BUS PREMI...', both associated with 'My Company'. The interface also shows navigation tabs for 'Process', 'Navigate', and 'Page'.
